

Table 2. Mean of overall scores from third grade students (n= 194) at 10 NJ schools before and after attending the *Jump with Jill* show (School Year 2015-16)^a

Question	Pre-survey ($\bar{x} \pm SD$)	Post-survey ($\bar{x} \pm SD$)	S (signed Rank)	P value
1. The drink that is going to make me feel best is...				
Milk, water	13.0 ± 4.83	16.8 ± 4.76	25.5	0.008
Soda, Fruit Drink, Energy Drink	6.6 ± 3.89	2.5 ± 2.84	-26	0.006
2, Healthy choices like exercising and eating healthy show your body respect.	84.4 ± 18.61	89.1 ± 15.9	18	0.008
3. Learning about nutrition is exciting.	58.6 ± 20.82	77.0 ± 13.22	22.5	0.019
4. When you need something sweet, choose naturally sweet fruit.	67.4 ± 21.38	77.1 ± 16.52	20.5	0.016
5. Vegetables give my body healthy skin, hair, muscles, eyes and bones.	77.3 ± 15.97	89.0 ± 13.19	27.5	0.002
6. I plan to try a new vegetable within the next week.	56.3 ± 10.87	64.7 ± 12.28	22.5	0.004
7. I enjoyed taking this survey today.		92.8 ± 15.22		

^a Scores were determined by having children line up behind an emoji depicting the following responses equated with the corresponding value: ABSOLUTELY NOT=1; No=2; Not Sure 3; Yeah=4; YES!=5. Score value was calculated at each time point by first multiplying each question's score by the number of children who lined up behind that question, then summing these multiples for each time point and school. For the question 1, scores for Milk and Water were combined and classified as a positive response; Energy Drink/Fruit Drink/Soda were combined and classified a negative response. P values were determined using the Wilcoxon Signed-Ranks test. *<.05 **<.01 ****<.0001
